REPUBLIC OF SOUTH AFRICA

BioPANZA as per Operation Phakisa-Biodiversity Economy 2016

Value Proposition

The BioPANZA is aimed at harnessing existing initiatives/ opportunities and address the innovation chasm through:

- Promoting local value addition, innovation and product development.
- Promoting ease of access to financial assistance.
- To transition the Informal sector (market) into the formal sector (market)
- Discuss potential project and possibilities of pooling together resources to assist the project contributing to the objectives of the network,
- One stop shop for the relevant information on:
 - Legislation processes/ recent developments,
 - Available funding opportunities,
 - Research opportunities that changes the game of current players,
 - Provide market based information,
 - Networking spaces,
 - Event/ trade and export information centres or platforms, nationally internationally.

3 Proposed BioPANZA (Bio Products Advancement Network South Africa) to coordinate the sector and address the innovation chasm
